DUTIES OF THE AUDITOR OF ACCOUNTS.

The following are the important provisions of the new Ordinance establishing the office of Auditor of Accounts:—

The Auditor shall receive all accounts and claims against the City, after the same shall have been certified by the Committee, or the proper certifying officers authorized on behalf of the City to make the contract, or cause the expenditure to be made. He shall carefully examine all such accounts and claims, see that they are correctly cast and duly authorized by the City Council or its order, and having certified to the same shall present them properly filed and labeled to the Committee on Accounts.

• The Auditor, on or before the first day of February, annually, shall report to the City Council the receipts and expenditures of the past financial year, giving the details under their appropriate heads, the names of the persons to whom payments were made, and the purposes for which such expenditures were incurred, furnishing also a schedule of all property belonging to the City, a schedule of all leases of public property, with the rates of rent, names of tenants, and date and determination of leases; and an exhibit of the loans or debts bearing interest due from the City, the rates of interest and the times when payable; the whole to conform as near as practicable to the accounts of the City Treasurer.

AUDITOR'S REPORT.

OFFICE OF THE AUDITOR OF ACCOUNTS,
CITY HALL, January 31, 1876.

TO THE HONORABLE CITY COUNCIL :

The following Report exhibits the financial transactions of the City for the last fiscal year, classified and analyzed in accordance with the provisions of the Ordinance of 1875, establishing the office of Auditor of Accounts. As explained elsewhere, the comparative results of the year cannot be so fully presented as in the last Report, the amount of floating liability in the form of unsettled accounts, so essential to a complete statement, being unknown at so early a date in the year as January.

An experience of two years under a City administration has developed unexpected and pressing demands for public conveniences and improvements. Had these demands received from the City Councils the full and favorable response so urgently claimed by the citizens of the several Wards, the expenditure of money might have been easily doubled. It is fortunate, however, that the *strictly ordinary expenses* of the City, though large in some of the departments, have not been, in the aggregate, excessive, and that the increase of outstanding liability,

other than for "Water Supply," has been comparatively small.

But the entire temporary loan which represents the increase referred to, is less than the aggregate amount paid for purposes outside the limit of ordinary expenditure; while for its cancellation the productive or cash assets of the City are practically sufficient.

For this increase of temporary debt, the City has gained a greater amount in the value of property partly secured thereby, exclusive of its reduction of liability transferred from the Town, and its large expenditure under the orders of the County Commissioners. The City Hall property remodeled and relieved from encumbrance, the enlarged and improved High School building, the new City Stables in Ward Two, the Steamer House No. 3, and other estate acquired at the expense of the City, are a satisfactory representation of the gain thus made, as well as of some of the chief causes of increased liability.

With no immediate demand for additional public buildings, and with the means practically in hand for the liquidation of its existing temporary loan, and the limitation of expenditure to actual and ordinary necessities, the financial wants of the City, and the reduction of its present outstanding debt, except on water account, may be easily provided for.

STATEMENT OF THE CITY DEBT.

The debt of the City December 31, 1875, as represented by outstanding notes and bonds, is classi-

fied under three heads, viz: the Permanent or Town Debt, the Water Loan, and the Temporary Loan, the whole amounting to \$877,717.04.

The Permanent Debt.

This debt, originally represented by Town notes alone, is so classified because of the intention of the City Council to provide for its maturing instalments by extension or by funding. When assumed by the City this debt amounted to \$407,000, but was reduced \$20,000 in 1874, and \$200 in 1875, and now stands at \$386,800.

During the past year, \$47,000 became due and was extended for a term of twenty years, at an annual interest of six per cent, which differs but a fraction from the average interest at which the entire debt is being carried. Another instalment of \$15,000 will mature the present year (1876), and \$30,000 in 1879, while \$18,800 is payable on demand. Possibly these, with some other amounts, may be advantageously funded under the concurrent order of the City Council already passed.

The Water Loan.

This loan is represented by bonds denominated "Newton Water Scrip," in accordance with the provisions of section 5 of chapter 344 of the acts of 1872, which limited the issue to \$600,000. The scrip has been issued in pieces of \$1,000 each, redeemable in thirty years from date, and bearing interest at six per cent per annum. The sum of \$400,000 was negotiated in 1875 on terms most

favorable to the City, the premium realized averaging nearly three and one-half per cent. Of this amount, \$128,000 had been registered at the close of the year.

Pending the publication of this Report, the remaining \$200,000 has been placed upon the market at an increased premium, realizing a fraction over six per cent—a very flattering evidence of the financial credit of the City.

In order to meet the present estimated cost of an adequate supply of water for City use, an additional issue of \$250,000 of Water Scrip has been authorized by the Legislature, which, when negotiated, will increase the Water Loan to \$850,000.

The Temporary Loan.

The only loan of this class outstanding at the close of 1875, represented an amount borrowed from the "Water Loan Fund," and used for the payment of ordinary expenses. All receipts from sales of Water Scrip, including principal, premium, accrued interest and interest on deposits having been classified as such fund, the amount drawn therefrom to meet expenditure in other departments is accordingly treated as a temporary loan. The amount so used was stated in the Mayor's inaugural address as being \$88,252.80. Adding the interest on deposits, (\$2,664.24), and the temporary loan December 31, as thus classified, would be \$90,917.04.

The following is a descriptive list of the several loans referred to :

Permanent Debt.—Descriptive List.

	RATE.	PAYABLE.	AMOUNT.
City Institution for Savings, Lowell,	5½ per cent.	May 1, 1876.	\$15,000 00
“ “ “	6 “	Oct. 2, 1884.	20,000 00

Helen Woodward,	6 “	“	6,000 00
James H. Little,*	7 “	“	4,000 00
Total,			\$386,800 00

Water Loan.

Newton Water Scrip; rate 6 per cent; payable July 1, 1905; amount, \$400,000.

Temporary Loan.

Water Loan Fund; rate same as received on deposits in Bank; payable on demand; amount, \$90,917.04.

ASSETS AND LIABILITIES—NET STATEMENT.

The following exhibit of assets and liabilities includes only such of the latter as are represented by outstanding loans, no reckoning being made of unsettled accounts already accrued and coming over for payment in 1876.

Both classes of indebtedness, including accrued interest, were treated of in the results given in the last Auditor's Report, but as the brief time allowed by the new Ordinance for the compilation of the present Report would permit only an *estimate* of the probable amount of floating liability, no attempt has

* Mortgage note on purchased Vernon street estate.

been made to give what at best would have been an estimated aggregate. A complete statement upon the basis of the last Report might have shown by classification the full expenditure incurred or authorized in 1875, in comparison with that of previous years.

APPROPRIATIONS AND EXPENDITURES.

The whole amount appropriated for 1875, including the regular, additional, special, and water appropriations, was \$844,706.05, classified as follows:

Regular Appropriations for the year,	\$385,300 00
Water Appropriations,	400,000 00
Additional and Special Appropriations,	59,406 05
Total,	<hr/> \$844,706 05
Net amount expended	546,879 44
Aggregate net balance unexpended,	<hr/> \$297,826 61

Of the net amount expended, the sum of \$112,445.51 was on water account, and \$434,433.93 for other purposes. Adding to the latter the State and County taxes, and the total net expenditure in that connection, in 1875, was \$474,395.65.

Of the aggregate unexpended balance of appropriations, other than for water supply, there remained at the close of the year, \$8,272.12, after making the necessary transfers to meet payments under appropriations overdrawn.

The unexpended balance of the appropriation for water supply was \$287,554.49, after charging to that account the preliminary expenses, (\$1,993.46), for which an appropriation of \$2,000 was made in advance, the City Auditor being required by concurrent order of the City Council to transfer this item to the general account as originally intended.

The expenditures incurred under the several appropriations, as far as paid within the year, are fully stated in the summary tabulation presented herewith, and in the detailed analyses contained in subsequent pages. The following is the summary exhibit:

Appropriations for 1875.

OBJECT OF APPROPRIATION.		AMOUNT.	EXPENDED.

Totals,		\$844,706 05	\$546,879 44

*Net.

Of the \$121,529.42 expended for educational purposes, there was paid for compensation of teachers, janitors, etc., \$74,839; for fuel, \$7,457.47; for contingent expenses, including books, stationery, printing, conveyance of pupils, etc., \$14,352.76; and for the enlargement of the High School building, \$24,880.19.

Of the net expenditure for highway repairs and improvements, there was paid for superintendence, \$8,006.50; engineering, including incidental expenses, \$4,521.91; horses and carts, \$6,684.35; concrete work, \$8,778.02; improvements on certain streets authorized by special orders of the City Council, including half the cost of the Needham bridge at Upper Falls, \$28,978.47;* labor of men and teams on other streets, \$51,971.05; and for all other repairs, improvements, horse-keeping and contingent expenses, \$32,762.63.

A classification of net expenditure in the Fire Department shows \$12,194.05 disbursed for pay of members; \$1,870.88 on account of the fire-alarm telegraph; and \$18,707.52 for all other purposes, the latter including new hose and hose carriage costing nearly \$4,000, as estimated in the schedule of public property.

In the Police Department the pay of officers was \$13,180.25, and the net contingent expenses were \$981.64. The net expenditure for lighting streets was \$25,952.97, of which \$21,767.48 was paid for light, and \$4,185.49 for lamp-posts, lamps and contingent expenses. Similar analyses of other expenditures will be readily made by reference to the detailed statements.

* See page 33.

UNEXPENDED BALANCES AND TRANSFERS.

Eight of the appropriations for 1875 were exceeded by the expenditures incurred in the departments for which they were intended to provide. But the excess was covered by concurrent order of the City Council, authorizing a transfer of unexpended balances for that purpose. These balances and the transfers made therefrom are shown in the annexed tabulation.*

Balances.

OBJECT OF APPROPRIATION.	UNEX- PENDED.	AGGRE- GATE.
Support of Schools,	\$1,751 19	
Industrial or Mechanical Drawing,	955 63

* Exclusive of appropriations and expenditures for Water Supply.

ation made for the Needham road and the Oak street extension, as shown on page 33 of this Report, are not considered in this connection because their entire amount was absorbed in the general expenditures of the Highway Department.

TAXES AND TAXABLE VALUATION.

The following tabular comparison of statistics in this connection for the last two years, may be of interest :

	1874.	1875.
Value of Real Estate,	\$20,032,800	\$21,073,495
Value of Personal Estate,	8,048,645	7,882,374
	<hr/>	<hr/>
Totals,	\$28,081,445	\$28,955,869
Taxable Value of Corporate and Bank Stocks,	2,353,255	2,189,029
	<hr/>	<hr/>
Total Taxable Valuation,	\$30,434,700	\$31,144,898
Increase over 1874, \$710,198.		

The total assessment of taxes in 1875 was \$430,154.24—an increase of \$21,352.20 over the previous year; and the rate of taxation was \$13.50 per \$1,000, against \$13 in 1874. The assessments for 1875 were as follows :

City Grant for current expenses,	\$351,000 00
State Tax,	23,540 00
County Tax,	15,101 58
Overlay,	9,443 88
	<hr/>
	\$399,085 46
Assessment on Corporate Stocks,	16,163 84
Assessment on Bank Stocks,	14,904 94
	<hr/>
Total assessments,	\$430,154 24

Under the ordinance of 1875, the City Treasurer is required to charge interest at the rate of twelve per cent per annum on all taxes remaining unpaid on and after the first day of November. The discount formerly allowed on taxes paid prior to the first day of October is now discontinued, but this imposes no additional payment, inasmuch as no discount is included in the overlay as before.

The only taxes remaining unpaid December 31, 1875, belonged to that and the previous year, viz: \$4,077 to 1874, and \$63,020.83 to 1875.

In addition to other items which must be covered in the assessment for 1876, are three appropriations, amounting to \$36,000, made in 1875, subsequent to the regular appropriations and grant for that year. Of this amount, \$35,000 was appropriated for highway purposes, and \$1,000 for the City Stables in Ward Two.

THE TREASURY DEPARTMENT.

The accompanying statement of the City Treasurer exhibits the transactions of the Department under his charge, the business of which is largely increasing in volume and detail. Included in the receipts of the year are \$400,000 from sales of water scrip, \$425,000 from temporary loans exclusive of the amount borrowed from the "Water Loan Fund," and \$373,506.89 from taxes, the remaining receipts having accrued from miscellaneous sources.

Among the payments appears the item of \$475,000 on account of temporary loans. This amount includes \$50,000 used in payment of the last tem-

porary loan of 1874, viz: cash on hand, taken in December, \$20,088.01, and \$29,911.99 advanced by the Treasurer to make up the balance as explained in the last Report. The latter, rendered as a temporary loan, in his previous account, was reimbursed to the Treasurer January 14, 1875, the whole amount having been entered upon the first pay-rolls for that month, as required by City Ordinance in all cases in which payments or advances are made between the regular monthly pay-days. The following is the statement in detail:

CITY TREASURER'S ACCOUNT.

THE CITY OF NEWTON IN ACCOUNT WITH EDWARD J. COLLINS,
Treasurer and Collector.

EDWARD J. COLLINS,
City Treasurer.

THE PUBLIC PROPERTY.

It will be seen by reference to the schedule of public property, on pages 65 and 66, that the estimated value of buildings, lands and other property owned by the City Dec. 31, 1875, was \$735,321.75. This is an increase of \$30,171.75 over the previous year, growing out of the completion of the City Stables in Ward Two, the enlargement of the High School Building, and the purchase of other property in 1875.

The schedule does not include the Newton Free Library, since transferred to the City. This very noble and munificent gift, including land, building, and a well selected library of upwards of 11,000 volumes, the whole valued at \$70,000, increases the aggregate valuation of City property to \$805,321.75—nearly \$100,000 over 1874.

CONCLUSION.

The present Report includes most of the documents which have usually been published in connection with the financial transactions of the Town and City. The Report of the City Registrar is omitted for the reason that only a portion of it could be given, the statistics of births in 1875 not having been collected in time for publication in its pages. Following the detailed statements of expenditure will be found the Tax List, and the Reports of the Acting Chief of Police, Overseers of Poor, and Chief Engineer of the Fire Department.

Respectfully submitted,

JULIUS L. CLARKE,

Auditor of Accounts.

ANALYSES OF EXPENDITURES.

The following Analyses have been collated as nearly as possible in conformity with the City Ordinance which requires publication of complete details, including even the smallest sums paid and the names of the parties to whom they are paid. It will be noticed that many pages are taken up with the names of persons receiving sums ranging from a few cents to two or three dollars each, thus involving needless labor and a useless expense to the City. It is believed that it would be very much better to group in one amount, in each account in which they occur, all sums under one or two, or perhaps three dollars, leaving all sums in excess thereof to be reported in detail as now. The aggregates thus grouped as paid "Sundry Parties," would be in every case comparatively small.

The several accounts as analyzed for the present Report show, as in previous Reports of the Town and City, the gross amounts paid from the treasury, and also in the same connection the *net* amounts in all cases in which any portion of the expenditure has been re-imbursed, together with the amount so re-imbursed.

EDUCATIONAL DEPARTMENT.

Expenditures incurred under the General and Special Appropriations for educational purposes, are

analyzed in the accompanying statements. The salaries paid Teachers in 1875 were as follows: —

High School: Master, \$3,000; Sub-Master, \$2,000; Assistants, each \$1,200.

Grammar Schools: Masters, \$2,200; Head Assistants, \$800; First Assistants, \$700; other Assistants in Grammar, and Teachers in Primary Schools, \$650.

Special Instructor in Music, \$2,500; in Drawing, \$2,000.

--------	--------------

CR.

Fire Department, for board of horses,	\$1,000 00
Almshouse, for labor rendered,	134 75
	<hr/>
	1,134 75

Net amount chargeable to highway appropriation of 1875,	\$141,702 93
--	--------------

In this amount is charged the cost of curbing, on account of which the sum of \$1,492.19 is due to the City from abutters on various streets.

Included in the same account, also, are the expenditures authorized under several special appropriations, all chargeable to the general appropriation for highways. These are shown in the following tabulation :

OBJECT OF APPROPRIATION.	AMOUNT.	EXPEND- ED.	UNEX- PENDED.
Needham bridge, Ward 5,	\$6,000 00	\$6,000 00	
Beacon street,	5,000 00	4,460 26	\$539 74
Waltham street,	5,000 00	4,143 79	856 21
Horses and carts,	5,000 00	5,000 00	
Fuller street,	4,000 00	3,134 63	865 37
Walnut street,	4,000 00	2,488 58	1,511 42
Temple street,	1,250 00	724 75	525 25
Crafts street,	1,000 00	936 50	63 50
Stone Crusher building,	250 00	247 72	2 28
	\$31,500 00	\$27,136 23	\$4,363 77

The amount paid to Dec. 31, 1875, under the appropriation for the Needham road and Oak street extension (a new appropriation), is charged in the general account. The appropriation was \$10,000; amount paid, \$1,842.24; balance unexpended, \$8,157.76.

FIRE DEPARTMENT.

The term of service of this Department expires annually, on the 1st of February. The compensation of its members for 1875 was established as follows :

Chief Engineer, \$700 per annum; Assistant Engineer, \$125; Clerk of the Board of Engineers, \$100.

Steamer Companies, Nos. 1, 2 and 3: Foremen and clerks, \$45; Engineers, \$1,080; Drivers, \$900; Stokers, \$100; Hosemen, \$40.

Hook and Ladder No. 1: Foreman and Clerk, \$45; Driver, \$900; other members, \$40.

Hand Engine Companies: Foremen and Clerks, \$15; Leading Hosemen, \$15; Stewards, \$70; Firemen, \$10.

Hose Companies: Foremen and Clerks, \$45; Hosemen, \$40.

Board of Engineers.

SECOND ANNUAL REPORT

OF THE

OVERSEERS OF THE POOR FOR THE CITY OF NEWTON.

CITY HALL, December 31, 1875.

TO THE HONORABLE THE MAYOR AND CITY COUNCIL
OF NEWTON :

Gentlemen, — The City Ordinance requires the Overseers of the Poor to present to your Body, annually, a statement of the condition of that branch of the public service under their charge. The Board, therefore, submit the following statement of their expenditures for the year 1875 :

Amount appropriated for Poor out of Almshouse for the year 1875,	\$5,000 00
---	------------

Expenditures of the Board.

Amount paid Hospitals at Worcester, Northampton and Taunton for support of insane,	\$1,724 64
“ “ cities and towns for relief of poor,	729 84
“ “ Reform, Industrial and State Pri- mary Schools,	83 57
“ “ board of sundry poor,	201 42
“ “ medical attendance,	729 00
“ “ medical prescriptions,	145 31
“ “ fuel,	667 35
“ “ groceries and supplies,	814 61
“ “ burial expenses,	161 00
“ “ miscellaneous expenses,	297 05
Total,	<hr/> \$5,553 79

By the foregoing report, you will notice that the Board have exceeded the appropriation \$553.79. This amount however will be largely reduced in the net result, as we have bills against the Commonwealth, and against various cities and towns for aid furnished persons belonging to them, amounting in all to something over \$400, disbursed in this account, which will soon be collected and paid into the City Treasury, thus showing the expenditures of the Board only about \$150 in excess of appropriation.

This result we regret exceedingly, as our Board are as much opposed to exceeding appropriations as any branch of the public service; but we are not conscious of having injudiciously applied funds belonging to the City, and are sure we shall not be accused of doing so, when you take into consideration the exceedingly depressed condition of all business interests during the whole year, thus making it very difficult for persons to find constant employment, and consequently to furnish those dependent upon them with their daily bread. In this connection allow us to suggest that a larger sum must be appropriated for the year 1876, or the next Board will be obliged to say with us, "We have exceeded our appropriation."

The first meeting of the present Overseers of the Poor was held January 18, 1875, and by vote of the Board Mr. John J. Ware was elected Warden of the Almshouse for the year, at a salary of \$400.

The Board have held regular monthly meetings since, and one special meeting at the Almshouse for the annual inspection of the whole institution. In regard to the latter and in justice to the Warden

and his estimable wife, it is our opinion that there is no institution of this kind in the State more judiciously and in all respects better managed. The average number of poor at the Almshouse for the year has been nineteen and three-tenths, supported at an average expense varying but a fraction from \$3.30 per week for each person; and nine persons have been fully supported by the City at the different State Lunatic Asylums.

The number of "travellers" or "tramps" has been upon the increase, especially during the latter month of the year, nearly two thousand and three hundred having been provided with food and lodging at the Almshouse and Police Station, at an estimated expense to the City of about five hundred dollars.

In closing allow us to say that in our opinion there is no way the deserving poor can be so effectually assisted as by giving them employment, and would respectfully suggest that as far as possible they may be employed upon our highways and other public works.

Respectfully submitted in behalf of the Overseers of the Poor.

A. B. COBB, *Clerk.*

ANNUAL REPORT

OF THE

CHIEF ENGINEER OF THE FIRE DEPARTMENT.

TO HIS HONOR THE MAYOR AND CITY COUNCIL OF
NEWTON :

Herewith is presented, in accordance with the City Ordinance requiring the annual report from the Chief Engineer of the Fire Department, a statement of its condition, with a roll of its members, list of fires, alarms, amount of loss, insurance as near as possible, Fire Alarm Telegraph and Boxes, Reservoirs, etc., also a schedule of the property belonging to the City in charge of the different Companies in each Ward.

Organization.

The Department consists of the following :

Chief, six Assistant Engineers and Clerk,	8
Three Steam Fire Engine Companies, with Hose Carriage and Tender, 15 men each,	45
One Hook and Ladder Company,	14
Two Hose Companies, 6 men each,	12
Two Hand Engine Companies, 46 men each,	92
Making a total of officers and men,	<hr/> 171

Fires and Alarms.

The whole number of fires and alarms for the year 1875 was fifty-four, ten of which were out of the City, two were false, eight were second and third alarms, and thirty were fires in different parts of the City.

Apparatus.

The apparatus consists of three Steamers with Hose Carriage and Tender to each, one Hook and Ladder Truck, two Hand Engines with Hose Carriage connected, one Hand Engine not in use, and two Hose Carriages stationed in Wards 2 and 4.

Since my last Report the following changes have been made in the apparatus: Two of the Hand Engines referred to in my last report have been sold; also the two Chemicals, as per instructions from the Committee on Fire Department. Heaters have been put in Steamer Houses 1 and 3 for the purpose of keeping the water hot in the Steamers, so that they can be ready for duty at a moment's warning, which I consider as important as it is to have a Steamer.

As far as I know, everything connected with the apparatus of the Fire Department is in good working order. There have also been ten Johnson Pumps distributed among the different Companies, and I consider them a great addition to the Department, as they have saved a great deal more than their cost.

Hose.

There are about 9,775 feet of hose distributed among the different Companies, all of which is in good order excepting about 2,000 feet in Steamer

Two's House. I would recommend the purchase of about 2,000 feet more, 1,000 feet to be placed in Steamer Two's House, 500 feet for Hose No. 4, and 500 feet for Hose No. 5, as they have not enough for a change. When the hose they now have on hand is in use, they have no chance to dry it as it should be done, but are obliged to reel it on their carriage while wet, thus destroying it sooner than by use.

Reservoirs.

The whole number of reservoirs is twenty-six. A new one has been built in Nonantum Square, Ward 1, and contains about twenty feet of water, which would supply a Steamer about one hour. A new one has also been built on Station Street, Ward 6, near the old station on the B. H. & E. Railroad. Fortunately no very disastrous fire has occurred in the thickly settled parts of the City, otherwise the reservoirs upon which we depend for our supply of water would have been found inadequate for such an emergency. I look forward to the time when water will be running through all our principal streets, and plenty of Hydrants located, so that when called to duty the Fire Department of the City of Newton will be able not only to respond to the call, but have plenty of water to fight the fiery fiend, for I consider that if the Department, as now constituted, fails of doing its duty, the only thing that will be found wanting will be water, as was the case at the fire April 29th, at P. Cummings' houses.

Houses.

Since my last report there has been erected in Newtonville, Ward 2, a new building for the Hook

and Ladder Truck and Hose Carriage No. 4, with stables for the requisite number of horses. There are also sleeping rooms in the building for the accommodation of the permanent men, and everything in the building is complete with the exception of the hall, which needs furnishing.

In my report, last year, I recommended an alteration in the sleeping rooms in Steamer House No. 2, and I still recommend the alteration as then suggested, and hope your Honorable Board will see the necessity of the same.

There is now at the Engine House in Ward 4, a horse kept temporarily, and I would recommend that one be permanently kept there for the Hose Carriage, as we have reduced the company four men, in consideration of having the horse kept there.

In my last report I recommended the building of a new house at the Upper Falls, though the present building might do for a few years; but as it is not in the right location, and is very much out of repair, I think it would be better to build a new one, and dispose of the old one.

The engine houses in Wards 6 and 7 are in good order, though the one in Ward 7 needs painting outside as a matter of economy, and should have also a bath room—a necessary convenience already provided in all the other houses.

Fire Alarm Telegraph.

The Fire Alarm has worked very well the past six months, and the gongs in the different Engine houses are working correctly. There has been one new box added, No. 62, making in all eighteen boxes,

six gongs, and five strikers. There are at least six more boxes needed in different parts of the City. A striker is also needed in Ward 3, and I would suggest that a bell and striker be placed on the City Hall, as under the present system the members of the Company in that Ward who do not stay in the house permanently, are not sufficiently notified of a fire. If placed on the City Hall, the janitor of the same can ring the bell when needed.

The Superintendent of the Fire Alarm Telegraph needs a proper room for his batteries, etc., as the present one is not large enough, and is located in the cellar of Steamer House No. 3, which is not fit for a battery on account of the unevenness of the temperature. As an alteration must be made for this purpose immediately, I would recommend the building of a room large enough to accommodate the battery, in connection with the engine house.

I think the Fire Alarm Telegraph one of the greatest improvements which the City has added to its Fire Department, as it enables all the citizens of every Ward to learn whether the fire is in their own locality, or what part of the City it is in. It is also a great help to the different companies, as it is sure to tell when and where each is needed. The City of Newton may well be proud of her Fire Alarm Telegraph, as it can compare well with those of the surrounding cities.

In conclusion I would call your attention to the old engine houses in Wards 2, 3, and 6, which are of no use to the Department. As they are constantly depreciating in value, I think it best for the City to dispose of them, as large, new ones are already built in their places.

I tender my sincere thanks to his Honor the Mayor and City Council for their willing endorsement of my doings the past year; also, to the Committee on the Fire Department, to all my Assistant Engineers, and to the members of the Fire Department generally, for their promptness in replying to every alarm, for to them I feel that most of the success of the Department is due.

Respectfully submitted,

ORRIN WHIPPLE,

Chief Engineer.

NEWTON, December 31, 1875.

POLICE REPORT

FOR THE YEAR 1875.

OFFICE OF THE CHIEF OF POLICE,
WEST NEWTON, Dec. 31, 1875.

TO HIS HONOR THE MAYOR :

In conformity with the request of the Chief of Police I herewith submit the Second Annual Report of the transactions of the Police Department of the City for the year ending December 31, 1875.

At present the Department comprises a force of sixteen Regular and five Special Police Officers. On the 31st of December, 1874, the entire force consisted of ten Regular and nine Special Officers, making the average number of Regular Officers for the two years thirteen.

The compensation of the force and the contingent expenses for 1875 have amounted to \$14,845.99, paid to this date. This also includes the expense of feeding and lodging two thousand tramps, all cared for under the direction and at the Stations of the Department.

The following is a recapitulation of the service of the Department for the year :
